

Kipcon Opens A New Office: Kipcon New England, LLC

BOSTON, MA (April 9, 2010) - Kipcon Inc. is proud to announce the formation of its newest satellite office Kipcon New England, LLC. Led by Principal Jeanne Allen, Kipcon New England will provide community associations and property owners with sophisticated architectural and engineering services executed in a detail-oriented and timely manner.

Specializing in community associations for more than 25 years, Kipcon is one of the Nations premier full-service engineering design and inspection consulting firms. Leading the industry in the development of cutting edge reserve and transition studies, Kipcon New England offers the Kipcon Value Engineering Analysis©, which is an integrated approach to reviewing the three main areas of an association's budget — energy, maintenance and replacement parts — in order to reduce overall costs while going green.

Jeanne Allen, AIA Principal of
Kipcon New England, LLC

A former project architect with the State of Massachusetts Department of Housing and Community Development, Ms. Allen has extensive experience in all facets of multi-family housing and senior living design. As a member of the American Institute of Architects (AIA), the Boston Society of Architects (BSA), the U.S. Green Building Council (USGBC), the Seacoast Green Building Coalition and the Community Associations Institute (CAI), she brings 25 years of industry expertise and experience to Kipcon New England.

Understanding the reserve study process and recognizing the importance of properly maintaining ownership assets, Ms. Allen is excited to take on her new responsibilities as the Principal of Kipcon, New England.

“I am committed to high quality service and resourceful building solutions,” said Jeanne Allen. “I look forward to using my expertise in providing innovative and cost effective engineering designs through Kipcon New England.”
