

Ian Imber Becomes General Manager of Kipcon Inc, Washington Metro Office

ALEXANDRIA, VA (June 17, 2010) – Kipcon Inc., a full service engineering firm, is proud to introduce Ian Imber as the General Manager of Kipcon's Washington DC office, located at 1940 Duke Street, Alexandria, Virginia and providing services throughout the entire metropolitan region. In this role, Mr. Imber will lead the Kipcon team in providing community associations with sophisticated, cost-effective and personalized engineering solutions.

Ian Imber, a graduate of California University of Pennsylvania and an experienced engineering project manager, has extensive knowledge of all facets of construction. He specializes in drainage issues and pavement remediation. As a member of the American Society of Highway Engineers and the American Society of Civil Engineers, he brings almost 20 years of industry expertise and experience to Kipcon.

"I am very excited to spearhead Kipcon's DC office," said Imber. "I am proud of Kipcon's trademark work and am thrilled to lead our efforts in the Washington metropolitan area."

Leading the industry for over 25 years, Kipcon Inc. provides a complete range of multidisciplinary inspection and design capabilities for both new and existing construction. With a team of Professional Engineers, Architects, Inspectors, Certified Green Professionals and Reserve Specialists, Kipcon offers a wide range of services.

Specializing in Community Association services, Kipcon has led the industry in the development of cutting-edge Reserve and Transition Studies. In fact, President Mitchell H. Frumkin, PE, RS, CGP served as the Chairman of the joint task force between Community Associations Institute (CAI) and the National Association of Home Builders (NAHB) during the development of the best practices paper on Transitions. Likewise, he served as the Chairman of the National Reserve Professionals Committee during the development of the CAI's National Reserve Study Standards and Reserve Specialist designation. In addition, he co-authored the CAI book, "*A Guide to Replacement Reserve Funds and Long-Term Reserve Funding*." Kipcon's most recent innovation is the Kipcon Value Engineering Analysis© which simultaneously considers the three main areas of a budget – maintenance, energy and replacements - to reduce overall costs while going green.

"With Ian Imber as our General Manager," said Kipcon President Mitchell H. Frumkin, PE, RS, CGP, "I am more confident than ever that Kipcon will continue to utilize cutting-edge technologies and innovative techniques to consistently **engineer problems into solutions.**"
